## JOHN ENERGY LTD

# An influential Gujarati enterprise

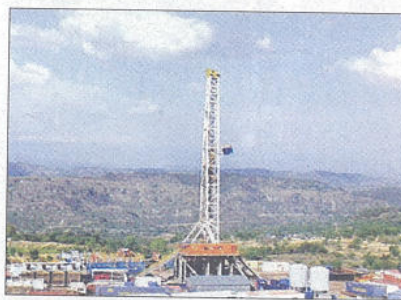

**MAHESH VYAS, CMD, John Energy**

**J**OHN Energy Ltd. welcomes all dignitaries to the 8th edition of biennial "Vibrant Gujarat Summit 2017" and wishes them GOOD LUCK! The team aspires to see Vibrant Gujarat Summit accomplish its goals.

Keeping in sync with the basic tenets of Vibrant Gujarat Summit, M/s John Energy Ltd. is an epitome of the indefatigable spirit and an entrepreneurial zeal of Gujarat and the Gujarati folks. M/s John Energy has done pioneering work in the up-stream sector of E&P business in Oil & Gas industry in Gujarat and is a shining example of feat worth emulating. With pushing its boundaries of technology and performance, it provides total solutions from drilling to completion. John Energy is an outcome of inquisitive thoughts and cherished trade of Gujarat.

The saga of John Energy is a fitting tribute of an influential Gujarati enterprise to the oil & gas sector, which happens to be a key area of impetus under the visionary leadership of our Prime Minister Narendra

Modi. The ambitious to outstretch as a global empire from Gujarat, team of the company has joined hands in providing excellent aftermath to the oil and gas industries across the globe. John Energy is frontier to upcoming trades and business in the vibrant fields of Gujarat. The company is working constantly towards its business aim to leverage its technical and safety leader-

ship that it has cultivated through decades of project execution in the Oil and Gas industry to enhance the efficiencies of customer's drilling projects.

John Energy has successfully evolved from a fledgling start-up by a first generation entrepreneur Mahesh Vyas in to the No. 1 Drilling & Work-over Rig Service provider in India. In its journey spanning more than two decades, the company with a seed capital of ₹5,000 in 1982 has turned into a successful enterprise with more than 1450 employees & turnover of about ₹600 crore. With the enrichment in various aspects of manufacturing & marketing and gaining experience during his stretch with a couple of companies, Mahesh Vyas set up his first enterprise JVM Engineering in 1982 and forayed into the field of manufacturing of water well drilling rigs. Vyas's relentless hard work and seriousness

towards his job has taken the company to such prime standards.

Sensing the impending boom in Oil & Gas sector in India in the early '90s, the company broadened their focus from manufacturing and stepped its legs into service industry for Oil and Gas. The unit has successfully diversified initially into the field of Well servicing and then into Work-over operations with rigs manufactured in-house under the flagship company John Energy Ltd. Mahesh Vyas has sharp business acumen and a very clear-cut rule of never ever adopting shortcuts in life which has led the rig count increased to an impressive figure of 14 rigs of capacities ranging from 30 to 160T; that too in span of a decade.

Fuelled by its success in the field of Work-over operations, the company branched into provisioning of drilling rig services in 2005. Within a short span of seven years in drilling rig services, the company with a rig fleet of 33 rigs (17 Drilling & 16 Work-over rigs) boasts of one of the biggest rig fleets owned by an Indian company. Since then he has never looked back. Vyas have always remained focused on taking the business to new heights. Having mechanical engineering and entrepreneurial culture background, Mahesh Vyas is an incarnation of successful first generation gujarati entrepreneur. He has a visionary mind that has pioneered the
